This file is automatically generated from [JEPNS.bib](#), which is itself automatically generated from [JEPNS\\_contents.html](#) by a program I wrote myself (`JEPNS_to_bibtex_03.py`). The bibliography style is that required by JEPNS, and uses a style file `JEPNS_biblatex.sty` written by me, together with the [biblatex](#) package. There are 242 items here, covering all volumes to 42 (2010).
